

**You be the author! It's easy to create your own custom course.
Extend your curriculum with powerful video lessons you select.**

1

Visit our course catalog. Get familiar with how EnglishCentral courses are designed. Thematic units with video lessons and a vocabulary quiz at the unit end.

2

Look at your existing curriculum. How is it mapped? Is it a book? Think about how you'd like EnglishCentral content to compliment your own course design.

3

Select video lessons and vocabulary. Download this spreadsheet and fill in the unit titles, the videos for each unit and 5 words for each video selected. *Don't know where to start?* Just send us your existing curriculum/book and we'll provide you with a list of videos that compliment your units.

4

Send us your completed curriculum selections. Also a logo. We'll do the rest! Also offer further recommendations. You'll be assisted with the expert content managers we have on staff.

5

We deliver your custom course! Just add it to your class page and students can begin studying video lessons that perfectly blend with your existing textbook or course.

?

Got any questions? We're here to support your curriculum needs. Just ask and we'll see if we can help out further. teachers@englishcentral.com
